*Unlike the conventional methods of rust proofing which tend to work as coating, a KROWN treatment actually displaces moisture and creeps into the inner metal fold of the vehicle - the areas where the most rust problems start. The KROWN formula remains active as an invisible barrier to repel moisture and salt and prevent it from re-entering the metal. The KROWN product can be applied in any season and weather.*

### NEW DECOMPRESSION TABLE RELIEVES PAIN

Darren Strong from Strong Chiropractic, announces a new, sophisticated computerized decompression table that allows the spine to be gently stretched and relaxed for spinal decompression therapy.

The pattern of alternating pulling and relaxing creates vacuum-like pressure which allows disc material that was herniated or protruded to be pulled back in the disc over time.

Patients will notice a reduction of their pain during these treatment sessions. Stop in today and ask about the new table and how you can benefit.

## AROUND THE TOWN

Lots of great news to celebrate this week - we dodged a bullet with the **Hurricane Teddy** and there was very little damage and power outages - Kudos to **Nova Scotia Power** for their readiness - I saw at least 30 power trucks from New Brunswick at a local Sydney Hotel in anticipation of the outages - I'm glad we didn't have to use them but Nova Scotia Power should be recognized as having the foresight to request help prior to the storm..... WOW, **K-LEE RADIO** is celebrating its **11th Anniversary** on Thursday, October 11th at the North Sydney Fire Hall on Pierce Street, from **1:00 - 3:00** - you are all invited to hear some great Cape Breton and Oldies music and we'll have lots of **Free Giveaways** to hand out - **no admission** for this live show, it sure doesn't feel like 11 years since we first went on the air in Baddeck in a small office over **Tom's Pizza** in Main Street in Baddeck, lots of great memories and laughs at the first few shows with all the mistakes and bloopers we had before we gained on air experience..... By now you should have received your **CBRM Voting ballot** with your **PIN number** to vote - remember that this year there will be **NO paper ballots**, voting will be done by phone or via the internet but you **MUST** have your PIN, if you didn't get yours, contact CBRM immediately..... some restrictions are easing up on local clubs and businesses for the Fall - dart leagues, hockey leagues and washer toss teams are now **registering** and that is a good thing, you still have to adhere to social distancing protocols but most of us are doing that anyway..... I would like to extend my congratulations to my nephew **Gary Gray** who will be getting married in Calgary, we thought you'd never "tie the knot", so congratulations to you and your beautiful fiancée and best of luck on your wedding day..... I want to share a little story about my grandson **Shay Campbell**, 6 years old, who had to get some blood work done, when his Mother asked how he did with his father taking him to get the blood work done he said, "**I went nuts!**", I think this sums up quite well the procedure of having your blood taken..... Keep checking the K-LEE RADIO website ([www.kleeradio.com](http://www.kleeradio.com)) for October as we plan to offer free Podcast music downloads, storytelling downloads and some unique music programs like, One Hit Wonders, Haven't Heard That One In A Dog's Age, Novelty Songs and Cape Breton fiddlers podcasts will all be available for free download - **NOTE** - Any club or group planning an event this Fall, please send your information to us and we'll be happy to publish it for Free - See you all next week - **GLEN**

The North Sydney Minor Hockey EVEN SPLIT starts up again on October 4th. Get your tickets now for the first draw and support local hockey.

## Take 2 with PAUL POWER

When Glass Tiger's debut album "The Thin Red Line" was originally released in 1986 it became an important album to me for personal reasons, and was a way to mark a milestone year. The red plastic cassette version of the album was given to me as a gift-and I still it (in mint condition at that) so the news of a remastered release by Universal Music Canada on 180 gram orange and black vinyl grabbed my attention, and the record looks so cool. Lead singer Alan Frew said: "Re-mastering and re-issuing "The Thin Red Line" is not only a testament to the enduring legacy of an album, it's also a testament to the enduring legacy of a band and it's fans. You are the best in the world and you share with us your love, not only of GLASS TIGER but also a love of one of the greatest decades in the history of music." The first single originally released was "Don't Forget Me (When I'm Gone)" with Bryan Adams on backup vocals, and it became a number-one hit single here in Canada, and a top 5 hit in the U.S. The band followed that up with my favourite song off the album, "Someday", which also became a top 10 hit. The title track is an amazing

song that has such a memorable music video with Scottish Highlanders marching to battle (I've read that the song is about the 93rd Scottish Highlanders stand in the Crimean war against a Russian cavalry charge at the Battle of Balaklava in 1854). "I Will Be There", "You're What I look For" (with a bilingual chorus) and "Closer To You" are all great songs, but one song in particular that really impressed me with it's uniqueness was the exotic U2 sounding "Ancient Evenings", and is actually the opening song on a live concert video broadcast by MuchMusic in 1986 that you can find on YouTube. The concert has all of the album's songs, and is a treat to watch. Last year Glass Tiger released their fifth studio album, and were on the road touring. Hopefully 'someday' soon we'll be able to catch Alan & the boys live on stage as they transport us all back to 1986 and a time when Glass Tiger roared loud & proud as one of Canada's finest.

**New Facility Horizon Achievement Centre**

The governments of Canada and Nova Scotia recognize the different ways that the COVID-19 pandemic has impacted smaller and rural communities across the province. Both governments are making strategic investments in infrastructure to meet the specific needs of rural Nova Scotian municipalities and help them strengthen their local economies.

That is why the governments have been taking decisive action together to support families, businesses and communities, and continue to look ahead to see what more can be done.

Jaime Battiste, Member of Parliament for Sydney-Victoria, on behalf of the Honourable Maryam Monsef, Minister for Women and Gender Equality and Rural Economic Development, the Honourable Derek Mombourquette, Minister of Energy and Mines and Member of the Legislative Assembly for Sydney-Whitney Pier, and Carol Pendergast, Executive Director of the Horizon Achievement Centre, today announced funding to build a new facility for the Horizon Achievement Centre.

The new facility in Harbourside Commercial Park will meet the growing needs of the organization which provides vocational training and employment services for adults with intellectual disabilities or those who face employment barriers. The project will allow the organization to expand its services and the number of individuals it serves.

The Government of Canada is investing more than \$2.6 million through the Rural and Northern Communities Infrastructure Stream (RNIS) of the Investing in Canada program in this project. The Government of Nova Scotia is contributing \$2 million while the Horizon Achievement Centre is providing the balance of funding.

## Now is the winter of our discontent...what do the candidates say?

On behalf of Clifford Street Youth Centre North Sydney, and non profits everywhere, I am asking you to grill the candidates in upcoming municipal election about what their plan is for the many many volunteer groups that are the glue that binds our communities together.

I listened this morning, on CBC radio, to interviews with District XXX candidates essentially regurgitating the same tired words; equalization, doctors, health care, jobs and finally childhood poverty... each made the usual hollow promises, although some have some actual experience, on the subjects but offered no real meaningful solutions. I am asking you, the voter, to press these, your, candidates for what they have actually done, [past performance is often one indicator of future performance] not what they plan to do if elected blah blah blah. If these folks say they were "on a board" ask them what they actually did... did they attend the meetings, did they apply for funds, fundraise, physically do the work? and finally what benefit to their group happened because they were there? did they perform or were they padding a resume? This would be a true indicator if their word reflecting who they are and more importantly how they may perform if they are elected... press them hard for answers!

We have had far too many 'invisible' elected officials! [Get elected then disappear from sight/do nothing.] We have also had some amazingly engaged representation as well.. reward those that served you, and others, well, vote for them!

Grrrrr.....As I often speak on the effects of poverty I am comfortable speaking about it and I take real offense to those that mutter the word poverty in a speech while having no clue as to what or how it impacts the residents they plan to represent. Poverty has been the word of the past few years. Large groups that fundraise bandy it about suggesting they are "going to reduce poverty by 1% each year" if only you would give to them etc etc... please check the track records of these groups to see if they remotely met their stated goals, if they fairly distributed the funds or did they just fund the same old underperforming groups with no real change in outcomes? [ the old adage of doing the same thing over and over again but expecting a different result come to mind here... ]

A number of the large 'shark' agencies are now starting to swim in the shallow water trying to suck up even the

smallest of resources. [donations] Due to the covid crisis many large well organized groups are finding, as are we at Clifford Street, that donations are way down. So the larger groups, [ the sharks ] with huge infrastructure and fixed costs , are now looking for ANY funding from ANY source including many areas/small dollar amounts that they would never 'lower' themselves to associate with normally. A number of us smaller groups are thinking on stepping up to become the big league fundraisers... or should we stay small and keep it all? Keep a watchful eye for those that promise the moon, whether it is charities or those looking to be elected... a great teachable moment!

In the past Clifford Street Youth Centre would obtain an elections Canada ballot box, for our voting, then channel the children into learning about each candidate to see what they were all about! Then we would have our election just like the adults. The results varied, but the learning was invaluable. With so many stepping down it is YOUR turn to learn about the candidates, press them on their promises, see what they have actually done. [ some have done incredible things by the way ]

This election is very important as we have a number of folks stepping down from their long standing roles in public service...please take the time to be certain that the next person we elect for your municipal area will actually step up and do something for the constituents. Your future enjoyment, wherever you live, depends on it.

To those that stepped up now, and in the past, to run, good luck, thank you for the brave step to become our representative for our town[s]... now just don't forget to actually get up and lead for us ALL. For those retiring thank you for your service to community and paving the way for those that follow.

To donate, or volunteer time, please contact 902 794 9371 or [Cliffordstreetyouthcentre@hotmail.com](mailto:Cliffordstreetyouthcentre@hotmail.com) for email.
