## NEW DECOMPRESSION TABLE RELIEVES PAIN

Darren Strong from Strong Chiropractic, announces a new, sophisticated computerized decompression table that allows the spine to be gently stretched and relaxed for spinal decompression therapy.

The pattern of alternating pulling and relaxing creates vacuum-like pressure which allows disc material that was herniated or protruded to be pulled back in the disc over time.

Patients will notice a reduction of their pain during these treatment sessions. Stop in today and ask about the new table and how you can benefit.

The other day I was looking at some great music Blu-ray's and found **GENESIS—"Three Sides Live"**. The English supergroup originally had Peter Gabriel as their frontman, and when Peter left the band in 1975 he was replaced by their current drummer Phil Collins. With Phil leading the way the band hit their highest notes-both commercially and creatively. Phil and the band recorded 2 really good albums before hitting the motherlode with the release of "Duke" and "Abacab". Those 2 albums were harbingers of what was to become Genesis's signature sound. This film was recorded when the band hit the North American shores in 1981 on their concert tour, and has been remastered from the original 16mm film for Blu-ray release. The Blu-ray gives the viewer the best of both worlds; spectacular performances of songs from the "Duke" and "Abacab" albums, interspersed with behind-the-scenes footage and interesting interviews; things like Phil explaining how the band wanted to avoid being pigeon-holed or constrained by what was expected of them when they played live-and how they liked to mix things up, or the inevitable question at a radio call in show-whether Peter Gabriel was ever

returning to the band. However, the most important thing here is the music (12 tracks in all) and the fantastic live performances; just to mention a few, "Abacab" gets a great low end bass kick and has an incredible drum duel between Phil Collins and Chester Thompson. You can clearly see them both having a blast on the skins. The band also hits home runs on the well-known hits "Misunderstanding" and "No Reply At All". My favourite performance here is of the song "Turn It On Again", as Phil and the band rocks out on stage, cut with clips of family and friends in tow, and the roadies doing all their mostly unseen stuff to make the show everything it can be-and more. It may not seem all that 'rock and roll' but someone even has to vacuum the stage carpet before the show! The bonus section features audio-only takes of the songs "Behind The Lines", "Duchess", "Me & Sarah Jane", "Man On The Corner", "One For The Vine", "The Fountain Of Salmacis" and "Follow You Follow Me", which is a nice option. This concert gives you a great opportunity to look back and experience Genesis at the cusp of something that was to become larger than life. Enjoy!

# A New Bike For Grading

Every kid's dream was to get a new bike for Grading and I can remember the first one I got. It was a CCM "Flyer" and it shone like a diamond with new spokes and chrome fenders, a battery operated horn and handle bar streamers.

It was exactly as it was pictured in the Eatons catalogue which, incidentally, was where my mother purchased it. I remember coming home with my Report Card, happy to have graded and even happier to be on Summer vacation.

When I got home, my Mother had baked a chocolate cake for the occasion and I was sitting down with the cake and a glass of milk. My Mother left the kitchen and went into the bedroom. I was busy filling my face when she came up in back of me and said, "Happy Grading Day".

When I looked around, there was the CCM bike of my dreams, all gleaming and new and just waiting to be ridden like the wind. I remember jumping up and spilling the remainder of the milk in my excitement.

I couldn't wait to take the bike out but my Mother cautioned me to go down to the Hardware Store and buy a bicycle lock. She gave me a card with a two dollar bill in it (remember those?) and I headed down to the Hardware store to get the lock.

The Hardware store was next to the Barber Shop and it had a bicycle rack in front. I carefully put my new bike in the rack and went inside to buy a lock. I wasn't very long and when I came out, my bike was gone from the rack.

I stood there in shock - I only had the bike for less than five minutes and it was stolen. I couldn't imagine going home to my mother and telling her I lost the bike.

As I was standing there in shock, the barber who cut my hair came out of the shop and told me a red haired boy took the bike. I knew immediately who it was - Tubby O'Shea - the neighbourhood bad boy.

I started running to Tubby's house and I found him in his back yard along with his gang admiring my new bike. I often heard the phrase "he went nuts" and that was exactly what I did. I started screaming nonsense words and picked up a bat lying on the ground. I ran right up to Tubby and he dropped the bike and started running along with his gang. I chased them still screaming and swinging the bat.

Finally I stopped and ran back to get my bike. From that day on, I never had any trouble with the "gang" as they thought I was "crazy as a loon". I had that bike for 6 years before I handed it down to another friend of mine.
