### Little Band of Gold

Forty five dollars to the jeweller  
did pay.

for little band of gold you wore  
wedding day

it was a symbol of hope,  
fidelity and love,

that carried us through,  
when times became tough.

A little round circle unending  
you see

that joined us together to  
raise family.

Of two little boys now grown  
to men

searched out a jeweller, for  
gold wedding band.

To place on the hand of their  
brides to be

as they too travelled the road  
to raise family.

### NEW DECOMPRESSION TABLE RELIEVES PAIN

Darren Strong from Strong Chiropractic, announces  
a new, sophisticated computerized decompression  
table that allows the spine to be gently stretched and  
relaxed for spinal decompression therapy.

The pattern of alternating pulling and  
relaxing creates vacuum-like pressure  
which allows disc material that was  
herniated or protruded to be pulled  
back in the disc over time.

Patients will notice a reduction of their  
pain during these treatment sessions. Stop  
in today and ask about the new  
table and how you can benefit.

## New Dog Park For Northside

Cape Breton Regional Municipality is planning to construct a dog park for the Northside. A new fenced dog park will be installed by the municipality near the Emera Centre Northside. The 20,000 square foot area is designed as a safe place for pet owners to engage in activities with their dogs. The area inside the fence will be off-leash, but dogs must be leashed outside of the fenced area.

Dog owners can park at the walking track and walk up to the park.

Any comments or questions can be directed to CBRM at [www.cbrm.ns.ca](http://www.cbrm.ns.ca) Construction will begin this week and CBRM will announce when the park is open and ready for use.

Dog park users are required to abide by the following rules:

1. Dogs must have current CBRM tags (available from the CBRM Citizen Service Centre and SPCA)
2. You must carry a leash.
3. You must keep your dog within sight.
4. Do not allow your dog to dig holes in the park.
5. You are responsible for any damages or injuries caused by a dog in your care.
6. Dogs must not interfere with other park users.
7. Aggressive dogs, female dogs in heat, and puppies under three months old are not permitted in off-leash areas.
8. You must pick up your dog's waste immediately and dispose of it in the garbage can.

I'm sure that most of us have been spending more time than usual in front of the idiot box (now with restrictions easing and nicer weather lets get out more, right?) but with so many choices what does one watch? I've done my fair share of starting a series-only to get 2 or 3 shows in and then saying "Nope". Bruce Springsteen has a song called "57 channels and nothing on", well multiply that by 1000 and you get a lot of crap on TV-the key is finding something worth investing time in-I rediscovered such a series. The free CBC gem app offers up the complete series of the amazing teen comedy-drama "**Freaks and Geeks**". Unfortunately there was only 1 season (18 shows) produced during the 1999-2000 season on NBC before it got canceled-only to go on to achieve cult status, win awards and show up in numerous lists of the top television shows of all time. To summarize, the show is set in a Detroit suburb in 1980-1981 and holds a magnifying glass over "the sad, hilarious unfairness of teen life". Produced by Judd Apatow and created by Paul Feig the series launched the careers of Seth Rogen, James Franco, Linda Cardellini, Jason Segel, Busy Phillips, Martin Starr, Samm Levine and John Francis Daley.

As each episode progresses we witness a metamorphosis of the main characters-becoming something totally different from what they used to be; one episode story line in particular may be the first (or one of the first) to address sexual identity and gender assignment at birth. This series offers a perfect blend of drama and comedy, made even more relatable by having characters that truly represented what and who most of us were in high school-the jocks, the band nerds and of course the freaks (stoners) and geeks (just plain old nerds-who may very well turn out to be the coolest group of all). For me, the all-time best 2 TV programs about growing up are "The Wonder Years" and this one; I love "The Wonder Years" but "Freaks and Geeks" opened the door for the majority of the cast to go on to do much bigger things. I actually have the DVD box set of this series, with extras included-but for now you can find the series online. Enjoy!

## JACK COOL K-LEE RADIO DJ NEWS

I had the pleasure last week of doing a Zoom interview with Dani Bailey.

She is the golden ticket winner who won the opportunity to be killed by Jason and how this all came about is a very interesting story. She is a big Friday 13th fan - biggest one in her opinion and Bailey was beyond thrilled for Vengeance the first

one and she got right on it and became a Kickstarter for the initial campaign and she pre-

purchase the DVD to make a long story short she got her chance to get killed by Jason Voorhees She is also going to be in Vengeance 2 Bloodlines.

She couldn't talk about exactly what part she's going to be playing in the movie because she wasn't too sure if she was allowed discuss that just in case.

When the okay comes to talk about that I will definitely put it in the paper.

If you would like a copy of the interview please email me [Jack.jackcool@mail.com](mailto:Jack.jackcool@mail.com)

I had the absolute pleasure of doing the Zoom interview with actress Sanae Loutsis.

Sanae has been very busy not only is she back as Tommy Jarvis' youngest daughter Ashley Jarvis alongside her sidekick who plays her sister Angelica Jarvis played by Kelly Tappan.

She also got the star in another Friday the 13th fan film called Rose Blood where she got to meet actor Terry Kiser and Lar Park Lincoln who are both in this movie.

Another movie that Loutsis is going to be in is the Last Slay Ride.

Special thanks to her father Shawn Loutsis for arranging this interview and her manager Alexi Angelino for all her support.

if you'd like a copy of this interview you are welcome to have that by emailing me at - [jackcool@mail.com](mailto:jackcool@mail.com). Have a great week everyone - all the best, God bless - Jack

## Capt. Highliner & The Mackerels

Ambrose Coffin was a retired Newfoundland sea captain who lived on the Esplanade next to Sydney Harbour. He would always say, "The mackerels is runnin'" and that would be the signal for hordes of would be fishermen to head for the Sydney Government Wharf.

Ambie, as we called him, also kept a dory and he would go out in it from time to time to fish or to catch the mackerels.

On the day in question, he was jigging the mackerels when a ship's horn sounded. He didn't move as he was catching fish. The ship kept on coming and blowing the horn. The ship wanted to dock at the wharf and felt it had the right of way.

Ambrose had to frantically row his dory out of the way as the big ship steamed into the wharf. The prop wash caught the dory and it capsized with Ambie losing his fishing gear and the mackerels. The crew on the ship were laughing at the sight of Ambrose soaking wet on the shore.

Ambrose filed a lawsuit against the captain and the shipping company. When it came to court, the captain had a high priced lawyer defending him. Ambrose had a copy of the Mariners' Law of The Sea and quoted that an unpowered vessel had right of way over a motorized vessel and the ship should have given way.

The lawyer tried to argue that the ship had to land its cargo and Ambie was blocking his way. The debate went on for three hours but at the end of it, the judge ruled in favor of Ambrose and awarded him damages. The captain muttered, "I should have run the old bugger over."

The judge heard him and banged his gavel and said sternly, "And another \$500 for the lost mackerel!" Ambrose danced a jig and the captain stormed away. From that day forward we christened Ambrose "Captain Highliner" and he would tell the tale of the \$500 mackerels to anyone who cared to listen.

## GRASS FIRE SAFETY

A grass fire differs from other fires by its extensive size, the speed at which it can spread out from its original source, its potential to change direction unexpectedly and its ability to jump gaps such as roads, rivers and fire breaks. To prevent dangerous grass fires, assess your property to determine its risk. Tall trees, wild grass, shrubs and any other combustible materials can all contribute to spreading a fire. During drought or extended lengths of dry weather, this vegetation can become perfect fuel for a fire driven by strong winds. Some simple planning will greatly reduce the threat to your home, property and community.

- \* Do not throw cigarette or cigar butts on the ground or out of a vehicle. Dispose of them properly and make sure they are completely extinguished.

- \* Keep a 30 foot "safety zone" surrounding your home. This area should be clear of brush, with grass cut short. Store firewood and other combustible materials at least 30 feet away from any buildings. For homes that sit on a steep slope, the safety zone should be increased accordingly.

- \* Keep your yard healthy, cut and watered - it is a natural firebreak.

- \* Clean up dead leaves and twigs from yard, roof and gutters. Cut tree limbs within 15 feet of the ground and remove dead branches that extend over the roof.

- \* Do not park cars, trucks or recreational vehicles on dry grass or shrubs. Exhaust systems on vehicles can reach temperatures of more than 500° C. It only takes about 200° C to start a grass fire in the Summer.

- \* Use an approved spark arrester on all internal combustion engine power equipment. This special muffler helps ensure that sparks generated by off road vehicles, chainsaws and other equipment don't start grass fires.

- \* Parents should emphasize to their children the dangers of playing with fire. Children who have no idea how quickly flames can grow and spread, start many grass fires.

- \* Homeowners who barbecue should maintain a 10 foot area free of brush and shrubbery around grills and propane tanks. Never leave a grill unattended.

- \* Keep a shovel, buckets of water, fire extinguisher or garden hose on hand any time while burning outside.

- \* If conducting a controlled burn, have a water hose close by and inform your local fire department before burning.
