NEW DECOMPRESSION TABLE RELIEVES PAIN

Darren Strong from Strong Chiropractic, announces a new, sophisticated computerized decompression table that allows the spine to be gently stretched and relaxed for spinal decompression therapy.

The pattern of alternating pulling and relaxing creates vacuum-like pressure which allows disc material that was herniated or protruded to be pulled back in the disc over time.

Patients will notice a reduction of their pain during these treatment sessions. Stop in today and ask about the new table and how you can benefit.

In Memory of George Payne

Born June 18th, 1937

Died Sept 24th, 2020

Just over a year ago we lost a musical legend and a well known accordion player George Payne.

George was a gifted accordion player, since he was 13 he played in many venues around Cape Breton.

George's hobbies were recycling old cars and fixing things up.

He loved to travel to Newfoundland and loved meeting different people.

We will always remember his laughter and his smile.

An important part of 'Canadiana' is our music-and Murray McLauchlan is definitely one of our elder statesmen. Since releasing his first album in 1971, he has chronicled part of the Canadian experience with amazing songs such as "Whispering Rain", "Farmer's Song" and "Down By The Henry Moore". After 18 albums and over 50 years in the music business Murray returns to the spotlight with his latest album "Hourglass". Much of the album was written during the pandemic but Murray said; "I'd hesitate to call it that because the album reflects a view of the world and global events that have been evolving for some time, with an emphasis on chronic issues like systemic racism, economic disparity and rampant consumerism, the global greed machine." Of course the songs here have Murray's trademark sound-blending folk and country influences, with pedal steel guitar, piano, guitar and vocals-all of which take the listener to an in-depth look at the human condition-and what needs to change. On here, "The One Percent" is a powerful slower song that addresses inequality, greed and the growing divide between the haves and have not's. "Pandemic Blues" is another powerful number that offers down-to-earth hope and

support for us all-with a 'hang in there for a better day optimism'. "America" is a political heartfelt plea for the nation to the south to reach out to each other in peace and understanding-and the song "I Live On A White Cloud (for George Floyd)" implores the listener to realize that not everyone has the same level of equality in modern day society. Continuing on, "Shining City On A Hill" and "10 Wishes" are picture-perfect reflections of Murray's musical path and legacy-great numbers filled with warmth, depth and charm. Without mentioning every song in this collection, its fair to say that Murray has chosen to present the numbers in a stripped down fashion-with messages of hope, musings on the passage of time, and what our future could be. Murray McLauchlan is an 11 time Juno award winning artist, received the Order of Canada, The Governor General's Performing Arts Award, has been inducted into the Canadian Country Music Hall of Fame and soon will be inducted into the Canadian Songwriters Hall of Fame. He is an icon worthy of our time,
