NEW DECOMPRESSION TABLE RELIEVES PAIN

Darren Strong from Strong Chiropractic, announces
a new, sophisticated computerized decompression
table that allows the spine to be gently stretched and
relaxed for spinal decompression therapy.

The pattern of alternating pulling and
relaxing creates vacuum-like pressure
which allows disc material that was
herniated or protruded to be pulled
back in the disc over time.

Patients will notice a reduction of their
pain during these treatment sessions. Stop
in today and ask about the new
table and how you can benefit.

Did you buy any music in 2022? Not a streaming service-but an actual physical copy of a song, or an album? If you bought a CD, a record, an audio cassette or a promotional 8-track tape you 'bought and own' it. If you bought music through Spotify, AppleMusic or other music providers you didn't 'buy' music-you bought 'access to' that music, and even if you downloaded it to your phone or an mp3 player you still only bought 'access'. The exception to that is if you burnt that music to a CD. Since the dawn of the MP3 (in 1993) the music world witnessed a technological leap of epic proportions; it offered a new and cheaper way for musicians to spread their music literally around the world-but it also made music so readily available that there was soon too much music. The days of trips to a record store, Woolco, Zellers, Walmart or joining Columbia House to get records and CD's were replaced by free downloads, and sites offering money for nothing-beats for free. Music is now super-disposable, leading to a sad state

of affairs as record companies had to find new ways to recoup costs, and make profits. Many didn't, and went under. Worst of all a song can now get a number 1 spot on the charts just by internet hits, likes and drops, and never actually sell even a fraction of what lower charting artists sell. It wouldn't surprise me if someone recorded the sound of a donkey farting and got enough people to "like it" to make it a hit; chances of that happening are not that far from reality, based on the Pop music crap we hear on the radio these days. The light at the end of the tunnel is the fact that there has been a resurgence in people of all ages buying record players and vinyl for quite some time now, and some music fans never stopped buying music in one form or another. One could say that they are music's saviors-and the MP3 is the Devil.

Cape Breton Music Hall Of Fame Inductions April 20

Rita MacNeil, Matt Minglewood, Men Of The Deeps and Buddy MacDonald's song "Getting Dark Again" will be inducted into Cape Breton's Music Hall of Fame at Centre 200 on April 20th.

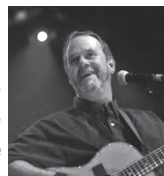

These talented individuals have provided a wealth of entertainment for many years in Cape Breton.

Congratulations to these artists on their recognition.

Buddy MacDonald's song "Getting Dark Again" encapsulates the spirit of Cape Breton and is a well known song all around the Island.

JACK COOL OLDIES SHOW
Friday at 9:00 pm

- TAX TIPS 2022 -

STUDENT TAX DEDUCTIONS

Remember to claim your federal tuition tax credit - The federal tuition tax credit is one of the top tax credits for post-secondary students. Even if you aren't reporting any income this year, you can use this credit to claim the eligible tuition fees (over \$100) you paid to take courses at your school. You can also claim fees you paid to an educational institution to take a course for developing or improving your skills in an occupation (if that institution is certified by Employment and Social Development Canada), as well as fees to take an occupational, trade, or professional exam, as long as you have the receipt.

The Canada training credit, is available if you paid eligible tuition or other fees for post-secondary courses you took during the year. In order to claim this credit, you have to be between 25 and 65, and have a Canada training limit. Your Canada training limit is based on the income reported on your return. The training limit for most Canadians who are eligible for this credit is now \$750 for 2022 which is up from its previous limit of \$500 in 2021. You can find your Canada training limit on your 2021 Notice of Assessment.

The Canada training credit is refundable, which means if your credit is higher than the amount of tax you owe, you get to keep the rest as a refund. This is different from the non-refundable tuition tax credit, which only reduces the amount of tax you owe.

Remember to claim the interest you paid on your student loans! Did you know the interest you've paid on your student loans can reduce the amount of tax you owe? You can claim the interest you paid in 2022 (or any of the past 5 years, if you haven't already claimed it) if your loan was issued to you under:

The Canada Student Loans Act;

The Canada Student Financial Assistance Act;

Act respecting financial assistance for education expenses (résidents of Québec);

The Canada Apprentice Loan Act;

A similar provincial or territorial government law; or

A law of a province other than Québec governing the granting of financial assistance to post-secondary students (résidents of Québec).

This means that interest paid on a personal loan or line of credit, a student loan that's been combined with another loan, or a student loan from another country won't qualify for this credit.

Old Time Radio And Music Podcasts

The Adventures of Ozzie and Harriet was a long-running American television series, airing on ABC from October 3, 1952 to September 3, 1966, starring the real life Nelson family. The series starred Ozzie Nelson and his wife, singer Harriet Nelson, and their young sons, David Nelson and Eric Nelson, better known as Ricky. The series attracted large audiences, although it was never a top-ten hit, it became synonymous with the 1950s ideal American family life. It is the longest-running "live-action" non-animated sitcom in US TV history.

When Red Skelton was drafted in March of 1944, Ozzie Nelson was prompted to create his own family situation comedy. The Adventures of Ozzie and Harriet launched on CBS on October 8, 1944, making a mid-season switch to NBC in 1949. The final years of the radio series were on ABC (the former NBC Blue Network) from October 14, 1949 to June 18, 1954. In total 402 radio episodes were produced. In an arrangement that amplified the growing pains of American broadcasting, as radio "grew up" into television, the Nelsons' deal with ABC gave the network the option to move their program to television.

YOUR WEEKLY HOROSCOPE

Aries (March 21- April 19) - Most of today is a Moon Alert (see above.) Postpone important decisions until tomorrow. Likewise, during the Moon Alert today, restrict spending money to food and gas. Don't volunteer for anything and don't make promises you can't keep.

Taurus (April 20- May 20) - Today you might go overboard with plans to travel or dealing with authority figures. You might feel intensely about something. Meanwhile, most of this day is a Moon Alert, which means tread carefully! Avoid important decisions and shopping (except for food and gas.)

Gemini (May 21- June 20) - You might be tempted to give away the farm today. If you're focused on how to divide something, or discussing shared property or an inheritance - be careful! Most of this day is a Moon Alert. (See above.) A poor time for important decisions, especially about wealth.

Cancer (June 21- July 22) - You continue to make an excellent impression on others; however, be careful when dealing with partners and close friends today because you might promise more than you can deliver. Because most of this day is a Moon Alert (see above) it's a poor day for important decisions or shopping.

Leo (July 23- Aug. 22) - Be careful about what you agree to today, especially with work colleagues. It's easy to go out on a limb. The fact is that much of today is a Moon Alert (see above). Don't make promises you can't keep. Don't volunteer for anything. Easy does it.

Virgo (Aug. 23- Sept. 22) - You might have strong feelings about something today, which is why you will be tempted to go overboard. Instead, check yourself. Don't do it. Most of this day is a Moon Alert (see above). Bad time for important decisions. Don't waste time trying to get others to agree with you. Chill out.

Libra (Sept. 23- Oct. 22) - Discussions with family members or about issues related to your home might be intense today. You might feel strongly about making a decision or taking something in a new direction. Bad idea. Most of this day is a Moon Alert. Be smart and wait until the alert is over.

Scorpio (Oct. 23- Nov. 21) - Today you might be raring to go! However, because most of today is a Moon Alert, it will be wise to check yourself and pull in your reins. Avoid important decisions during the Moon Alert. Don't jump into anything.

Sagittarius (Nov. 22- Dec. 21) - Today you have a strong focus on money, cash flow, earnings or something to do with a possession. However, because it's a Moon Alert for most of this day, it's a poor day for financial matters. Restrict spending to food and gas during the Moon Alert. (See above.)

Capricorn (Dec. 22- Jan. 19) - Today begins with the Moon in your sign, which can heighten your feelings about issues. Later in the day, you might have strong feelings related to matters about money or anything that's important to you. However, most of today is a Moon Alert. Avoid making decisions then. Ditto for shopping.

Aquarius (Jan. 20- Feb. 18) - This is a tricky day. In one way, you want to stand back and watch it all happen. Nevertheless, you won't be able to do this because you'll get sucked in. Furthermore, you might feel intensely about something. (Who knew?) Check the times of the Moon Alert. (See above)

Pisces (Feb. 19- March 20) - Stay mellow when dealing with friends and groups today. Don't volunteer for anything. Ideally, watch from the sidelines. For most of this day, there's a Moon Alert, which means it's bad time for decisions or spending money.
