NEW DECOMPRESSION TABLE RELIEVES PAIN

Darren Strong from Strong Chiropractic, announces a new, sophisticated computerized decompression table that allows the spine to be gently stretched and relaxed for spinal decompression therapy.

The pattern of alternating pulling and relaxing creates vacuum-like pressure which allows disc material that was herniated or protruded to be pulled back in the disc over time.

Patients will notice a reduction of their pain during these treatment sessions. Stop in today and ask about the new table and how you can benefit.

Meredith Moon is a Toronto born multi-instrumentalist singer/songwriter who has spent the last 10 years honing her craft and skills performing throughout this country, blending elements of folk and bluegrass to create a signature sound and style that's represented here in **"Constellations"**, her second album. Of the 10 tracks on the album 8 are original compositions and 2 are covers; "Soldier's Joy" can be traced back over 200 years to Scotland and Robbie Burns, and has seen many revisions and versions-with Meredith's claw-hammer banjo picking and vocals doing the song justice on this outing. That same great picking sound is present on the traditional "Needlecase Medley". The album actually opens with the hauntingly beautiful "Starcrossed", a song that invokes images of sitting on a patio watching a spring rain fall-and it flows perfectly into the next track, "That Town". This number features a great stripped down backing of fiddle and drums, and it reminds me of the Cowboy Junkies music. As for some of the other songs, "Your Cards"

comes across as a deeply personal musical ode, and the instrumental "Brokenwing Bird" starts off with a slow simmer, but soon boils over to a full-on claw-hammer banjo outing-it's a great number. "Slowmoving Train" closes off the collection, and it seems to be a fitting place for such a nice song. Overall the album seems to be more of an introspective collection of songs-with a few uptempo numbers interspersed throughout, all of which shine a bright light on Meredith's musical and lyrical abilities. One thing that Meredith purposely did for years was to gently avoid something; she tried to not ride on the coattails of a famous relative, preferring to cut a path based on her skills, free of nepotism from the music business. Meredith is Gordon Lightfoot's daughter. This is a great album that will appeal to fans of folk, bluegrass and nice music in general.

- TAX TIPS 2022 -

TAX TIPS FOR SENIORS RETURNS

1. MAKE SURE THEY FILE A TAX RETURN: - Sounds simple, but some folks think that if they didn't earn an income, they shouldn't file a return. Filing always makes sense, because they could be entitled to other credits, deductions and benefits that get triggered once they file a tax return. For example, they'd need to file to receive the Guaranteed Income Supplement (GIS) – and filing late could interrupt the GIS benefit, GST/HST credits and other automatic benefits.

2. SPLIT PENSION INCOME: - Seniors are allowed to split up to half of their eligible pension income with a spouse or common-law partner, so they can assign a portion of what they earned throughout the year to their better half. This can mean a significant tax reduction when one spouse has very little income, and the other has a lot. Another way to reduce taxes is through transfer amounts. If one parent is unable to completely offset their age amount, pension income and disability amount against their taxes payable, they can transfer the unused portion to their spouse's return.

3. CLAIM MEDICAL EXPENSES: - A portion of most medical expenses can be claimed! If your parent is part of a couple and the spouse with the lower income owes any tax, it usually makes the most sense for that person to claim them. Are your parents globetrotters? If they travelled to another country and purchased medical insurance for the trip, it's considered a medical expense. If they traveled to obtain medical treatment that wasn't available where they live, they might be able to claim the cost of transportation, meals and accommodation, depending on how far they needed to go.

4. CLAIM THE CAREGIVER AMOUNT: - If your parent (or parents) are dependent on you by reason of mental or physical infirmity you may be eligible to claim the Canada caregiver amount. You will need a note from their doctor describing their condition. The Canada caregiver amount is worth \$6,986 less their net income in excess of \$16,405. This means that the amount is reduced to zero if their income is in excess of \$23,391.

5. SPLIT THE DISABILITY TAX CREDIT: - If your parent qualifies for the Disability Tax Credit but doesn't have enough taxable income to take full advantage of it, they might be able to transfer an unused amount to you. In order to qualify for this, your parent must depend on you for all or some of the basic necessities of life.

Old Time Radio And Music Podcasts

This week we have an hour long story from the Lux radio series and we have included it for download on our website.

Lux Radio Theatre, sometimes spelled Lux Radio Theater, a long-run classic radio anthology series, was broadcast on the NBC Blue Network (1934-35); CBS Radio (1935-54), and NBC Radio (1954-55). Initially, the series adapted Broadway plays during its first two seasons before it began adapting films.

These hour-long radio programs were performed live before studio audiences. The series became the most popular dramatic anthology series on radio, broadcast for more than 20 years and continued on television as the Lux Video Theatre through most of the 1950s.
