NEW DECOMPRESSION TABLE RELIEVES PAIN

Darren Strong from Strong Chiropractic, announces a new, sophisticated computerized decompression table that allows the spine to be gently stretched and relaxed for spinal decompression therapy.

The pattern of alternating pulling and relaxing creates vacuum-like pressure which allows disc material that was herniated or protruded to be pulled back in the disc over time.

Patients will notice a reduction of their pain during these treatment sessions. Stop in today and ask about the new table and how you can benefit.

PAUL POWER

This week I'm looking back at the scariest horror film I've ever seen: "Prince of Darkness" is a 1987 American supernatural horror film, written and directed by John Carpenter, and starring Donald Pleasence, Victor Wong, Jameson Parker, Alice Cooper and Lisa Blount. It's the second installment in what Carpenter called his "Apocalypse Trilogy" that began with "The Thing" (1982) and concluded with "In the Mouth of Madness" (1994). This film followed a group of quantum physics students in Los Angeles who are asked by the church to assist in an investigation of an ancient cylinder of liquid discovered in a monastery-not knowing that the liquid is the embodiment of Satan. In an interview in 2012 with Rue Morgue Magazine John Carpenter revealed how he created the eerie dream sequences in "Prince of Darkness" that featured a shadowy figure emerging from a church doorway. Carpenter first shot the action of the figure (played by actor Jessie Ferguson) with a video camera and then "re-photographed it on a television

set" in order to give the image a peculiar, dislocated feeling that also appeared as if it was being filmed live. That sequence is terrifying. The Priest and head scientist had a theory that Satan is actually the offspring of the "Anti-God", an even more powerful force of evil bound to the realm of anti-matter. The survivors had a shared recurring dream of a broadcast from the future, 1999 to be exact, showing a shadowy figure emerging from the front of the church. The dream progresses with each passing night. Without getting into any religious dogma or beliefs here, the mere thought that the Devil is an actual being living in a church basement waiting for his 'father' to return for him is what made this film so scary, and the warnings from the future just made that so much more intense. So enjoy if you dare.

Island of Cape Breton

Our island of Cape Breton is in good hands, for our policemen are vigilant, our firemen courageous, our nurses caring, our parents protective, our teachers knowledgeable, our writers creative, Our Clergy Humble our politicians obliging, our citizens friendly, and our children respectful.
