NEW DECOMPRESSION TABLE RELIEVES PAIN

Darren Strong from Strong Chiropractic, announces a new, sophisticated computerized decompression table that allows the spine to be gently stretched and relaxed for spinal decompression therapy.

The pattern of alternating pulling and relaxing creates vacuum-like pressure which allows disc material that was herniated or protruded to be pulled back in the disc over time.

Patients will notice a reduction of their pain during these treatment sessions. Stop in today and ask about the new table and how you can benefit.

PAUL POWER

In the world of rock and roll there's the age old debate of who was better; Dio vs Ozzy, Hagar vs Roth, etc. but in this case it is about vocalists but also brother vs brother on their solo careers-namely Noel Gallagher vs Liam Gallagher. I will say up front that I have always been more of a Liam Gallagher fan, but knew fully well that there would not be an Oasis without his brother Noel Gallagher-the mastermind of the band.

The brothers Gallagher are known for their legendary fights, eventually leading to the band's break-up in 2009.

They both released a number of solo albums and this is Noel's latest one; Noel Gallagher's High Flying Birds "Council Skies" and I was really looking forward to hearing the album after seeing the videos for "Easy Now" and "Council Skies" on YouTube. The main album has 10 songs, with an additional 14 bonus num-

bers-mainly consisting of dance mixes, live cuts, instrumentals and a John Lennon cover song.

The listener gets 5 songs into the album before hearing the songs mentioned above, where any hint of Oasis shows up and, unfortunately, a lot of the rest are kind of forgettable. It's not that they're no good-they're just kind of bland, especially in comparison to what brother Liam has released on his 3 solo albums. Admittedly "Pretty Boy" and "Love Is A Rich Man" are two of the better tunes from the bunch, and "We're Gonna Get There In The End" is definitely a song to remember, as it represents the best of Britpop; songs from the 1990's that reflected an influence by the Beatles. Being a big Pet Shop Boys fan I do like their remix of "Think Of A Number" here though. All in all, I applaud Noel Gallagher for releasing this album but I am still 100% team Liam.

OLD TIME RADIO & MUSIC PODCASTS DRAGNET

This series was broadcast from June 3, 1949 to February 26, 1957 on NBC at various times and days, starring Dragnet starred Jack Webb as Detective Sergeant Joe Friday. Various partners throughout the show's run were Sergeant Ben Romero (Barton Yarborough), Ed Jacobs (Barney Phillips), and Officer Frank Smith (Ben Alexander). Webb was the creator/Director of the series and wanted everything to be as authentic as possible, down to the last sound effect. The stories were based on actual police files and "the names were changed to protect the innocent".

The series eventually went to television and ran there for many years. The familiar DUM DE DUM DUM, the first four notes of the opening theme became a pop culture legend and was forever associated with Dragnet.

Community Interview With Jack Cool

I had the pleasure this week of doing an interview with Don Most, best known for his role as Ralph Malph on the 70s TV show "Happy Days."

Don has released 2 singles so far: "Smoke From A Distant Fire" and (I Love The Way) My Baby Sings The Blues which made the charts.

Now Mr. Most going to have a third single and the cd that might come out in July & the single in August.

I'm sure myself and all the other great people are very much looking forward to that. Special thanks to Harlan Boll, well respected publicist, for arranging this interview. Have a great week everyone - Best from JACK

TAX TIPS

To be eligible for the Canada caregiver amount, a family member must have relied on you for support because of an impairment in their mental or physical functions during the year. This means they needed your help with daily activities, such as cooking, getting to appointments, or bathing. It used to be a requirement that the relative lived with you, but this is no longer the case.

For the purposes of this tax credit, a dependant can be your or your spouse's:

Child or grandchild; or

Parent, grandparent, brother, sister, uncle, aunt, niece, or nephew (if they lived in Canada at any time during the year). If the CRA already has an approved disability tax certificate (T2201) on file for the person for whom you're claiming the amount, you won't need a doctor's note confirming their condition. You can also claim their unused disability tax credit in addition to the Canada caregiver amount.

YOUR WEEKLY HOROSCOPE

Aries (March 21-April 19) - Take it easy today and be kind to yourself. It's important to know that there are gloomy vibes in the air today, which makes things look worse than they really are. Ah yes, the power of the mind will paint everything around you "drab", maybe drab chic?

Taurus (April 20-May 20) - You are the financial wizard of the zodiac. This is a fortunate year for you because lucky, money-bags Jupiter is in your sign bringing you marvellous opportunities that will make you richer next year. (Oh yes!) Meanwhile, today, things look grim.

Gemini (May 21-June 20) - Mercury is in your sign today, and of course, Mercury is your ruler, which is why you are a chatty, curious person. However, today Mercury is at odds with Saturn, which makes you critical and inclined to see the dark side of life. But it will sharpen your mind and help you work!

Cancer (June 21-July 22) - This is a good day for research of any kind. Therefore, if you're looking for answers or solutions to old problems, start digging deep today because you will have the patience, endurance, focus to find what it is you're looking for.

Leo (July 23-Aug. 22) - Today you will have to be patient when talking to friends, and especially you must be patient when dealing with groups, clubs and organizations because it will be easy for you to give a negative impression of yourself to others, even if you don't think you're doing so. Be careful.

Virgo (Aug. 23-Sept. 22) - Use diplomacy when talking to parents, bosses and the police today because your critical attitude might lead to a breakdown in communication. You might also be misunderstood. In either case, play things safe, and say as little as possible to avoid later regrets. Be smart.

Libra (Sept. 23-Oct. 22) - This is the classic day for arguments about politics, religion or any topic about which you have strong opinions. Other people have strong opinions, too! Avoid these topics today because this is a poor day for communications. However, you can use your sharp, critical mind to study.

Scorpio (Oct. 23-Nov. 21) - Financial disputes are likely today. This is certainly a poor day to discuss how to divide or share something, like an inheritance, because people will not agree with each other. Instead, use your "picky" mind today to check the details of negotiations and contracts.

Sagittarius (Nov. 22-Dec. 21) - Be friendly and patient when dealing with loved ones today, especially spouses, partners and close friends, because today it's easy to be critical and resist suggestions and dismiss comments made by others. This will win you no friends. Go gently.

Capricorn (Dec. 22-Jan. 19) - This is a good day for heavy mental work and any task that requires a disciplined mind because you won't overlook details; furthermore, you will be persistent and persevering. Admittedly, you might be critical of co-workers. Don't do this. Lighten up.

Aquarius (Jan. 20-Feb. 18) - Parents need to take a lighter approach when dealing with their kids today because it's easy to be critical. Be wise and follow Goethe's advice about dealing with children: "Criticism does much but encouragement does more."

Pisces (Feb. 19-March 20) - There's some tough energy out there floating in the air today. The worst way to use it is to have a family argument. The best way to use it is to roll up your sleeves and dig in by making home improvements or tackling home repairs. Do something.
