NEW DECOMPRESSION TABLE RELIEVES PAIN

Darren Strong from Strong Chiropractic, announces a new, sophisticated computerized decompression table that allows the spine to be gently stretched and relaxed for spinal decompression therapy.

The pattern of alternating pulling and relaxing creates vacuum-like pressure which allows disc material that was herniated or protruded to be pulled back in the disc over time.

Patients will notice a reduction of their pain during these treatment sessions. Stop in today and ask about the new table and how you can benefit.

PAUL POWER

I don't know very much about basketball, and I'm not really a fan of professional sports in general, so when I first heard about the movie "Air" I thought it would be a hard pass for me-but after taking a chance and watching it I will say that it's a slam dunk of a movie. The Amazon Studios/Warner Brothers production is, of course, the story behind the first pair of Nike's Air Jordan sneakers, and how Nike went from the verge of closing down its basketball shoe division to becoming the leader in sales and marketing for sports shoes.

Directed by Ben Affleck, the movie features Matt Damon, Jason Bateman, Marlon Wayans, Chris Tucker, Viola Davis and Affleck as well. It chronicles the incredible vision Sonny Vaccaro had in not only snagging one of the the top rated, and sought after NBA draft players (Michael Jordan) but also revolutionizing the shoe design world and the marketing world in general. Damon's performance here is fantastic-and Viola

Davis's role as Michael's mother (and deal-maker) is definitely one of her best so far. It was also nice to see Chris Tucker again, and Matthew Maher's portrayal of the shoe's designer (Peter Moore) is quirky and cool.

There's not a lot of 'on the court' basketball action shown here; the action takes place behind the scenes where decisions are made that can result in the win or loss of millions of dollars, and that makes for a very captivating viewing experience.

You don't have to be a sports fan, and as I mentioned I know bupkis about basketball, but seeing the numbers about profits, pairs sold and especially how much money was raised for charities at the end of the movie is mind-blowing. Check it out!

YOUR WEEKLY HOROSCOPE

ARIES (MARCH 21-APRIL 19) - For two more weeks, fiery Mars, your ruler, will be in your fellow Fire Sign, which energizes you and makes you feel vigorous and willing to work. It boosts your self-confidence and makes you more effective and more competent than usual.

TAURUS (APRIL 20-MAY 20) - For the next few weeks, increased activity and chaos on the home front might dog your steps. This could be due to renovations, residential moves, visiting guests, broken pipes, an influx of critters - could be anything that makes you determined to turn things around. You will.

GEMINI (MAY 21-JUNE 20) - You have been unusually persuasive and physically upbeat recently. This has been due to the placement of Mars in your chart. This energizing vigorous influence will continue for two more weeks, so make the most of it! It certainly makes you identify with your ideas, which is why you are so persuasive lately!

CANCER (JUNE 21-JULY 22) - At this time, you're willing to use your possessions to get work done. If you have something that will help you accomplish a task then you will use it. This energy and focus, especially using your money and assets, will last for two more weeks until July 10.

LEO (JULY 23-AUG. 22) - Fiery Mars will continue to be in your sign for the next two weeks. This is partly why you're so busy, and you're more of a fighter for your own rights than usual. Mars represents energy, which is why you have energy to burn!

VIRGO (AUG. 23-SEPT. 22) - This has been a mildly frustrating time because Mars has been hiding in your chart and will continue to do so for the next two weeks. This can provoke you to create the wrong impression and do something that undermines your own position. (Gone in two weeks.)

LIBRA (SEPT. 23-OCT. 22) - Competition with friends and groups will continue for the next two weeks, especially in physical athletics. It's important for you to learn how to cooperate with others and not try to run the show. Coordinate your needs with others.

SCORPIO (OCT. 23-NOV. 21) - Mars has been at the top of your chart for a few weeks and will continue to be there for two more weeks until July 10. This greatly arouses your ambition! It makes you want to succeed and to win, at all costs. Be careful because this can create conflict with coworkers and bosses.

SAGITTARIUS (NOV. 22-DEC. 21) - You are the traveller of the zodiac and recently, Mars has been urging you to get outta Dodge. Your desire to travel will continue for two more weeks, so act while you can. Use this same energy to study and learn new things. Explore and discover!

CAPRICORN (DEC. 22-JAN. 19) - Financial disputes, especially about inheritances and shared property, have been on your plate recently. This same astrological energy will also heighten your sex drive. These influences will continue for the next two weeks. Be prepared.

AQUARIUS (JAN. 20-FEB. 18) - It's never easy to have Mars opposite your sign because this can create conflict with those who are closest to you. In two weeks, Mars will move on and not be opposite your sign again for two years. Until then, patience is your best friend.

PISCES (FEB. 19-MARCH 20) - It's been easy to be productive because Mars has been in your House of Employment recently. It will continue to be there for two more weeks, giving you the energy and drive to work hard and get things done. Naturally, you want credit for your efforts! And why not?
