NEW DECOMPRESSION TABLE RELIEVES PAIN

Strong Chiropractic Inc. - We've got your back!

Darren Strong from Strong Chiropractic, announces a new, sophisticated computerized decompression table that allows the spine to be gently stretched and relaxed for spinal decompression therapy.

The pattern of alternating pulling and relaxing creates vacuum-like pressure which allows disc material that was herniated or protruded to be pulled back in the disc over time.

Patients will notice a reduction of their pain during these treatment sessions. Stop in today and ask about the new table and how you can benefit.

Take 2

PAUL POWER

This week I'm going to war....no, I'm not visiting Ottawa (LOL). Under the searchlight we have 2 movies: 1 that pits Vietnam era warfare with something that's best described as primortial and the other one is a battle between man and...what is it? **'PRIMITIVE WAR'** is a science fiction/horror film starring Jeremy Piven, Ryan Kwanten, Tricia Helfer and Nick Wechsler that is set in the Vietnam jungle in 1968 as a military reconnaissance unit carries out a rescue mission for a US Army special Forces platoon that were attacked by something that was brought back but should never have been revived. This is a great action film with battle scenes that look so real that you can almost feel and smell the jungle rot. Not that I am an expert on that war but from what I have seen about the Vietnam war this movie looks pretty darn accurate. It is well worth the viewing time. Nothing against the the former movie but the latter one here is the best of the 2: 'WAR MACHINE' is a heavy hitter starring 'Reacher' star Alan Ritchson (calm down ladies) along with Dennis Quaid, Esai Morales and some lesser known names in tow. Ritchson plays a staff sergeant who tangles with something out of the ordinary while on a tough training exercise. This movie looks great, with cool action sequences, great acting and a plot that does take a fresh look at the "what if's" in a life or death struggle-especially when you're the underdog, and are used to battles that from a military point are somewhat conventional. If action movies and/or war movies are what you're looking for then lock and load on these 2 targets for the bullseye.
