NEW DECOMPRESSION TABLE RELIEVES PAIN

Darren Strong from Strong Chiropractic, announces a new, sophisticated computerized decompression table that allows the spine to be gently stretched and relaxed for spinal decompression therapy.

The pattern of alternating pulling and relaxing creates vacuum-like pressure which allows disc material that was herniated or protruded to be pulled back in the disc over time.

Patients will notice a reduction of their pain during these treatment sessions. Stop in today and ask about the new table and how you can benefit.

MUSIC NOTES
 BY PAUL
 POWER

Three Days Grace - "Outsider" - A number of years ago I had the opportunity to do a television interview with the band members of Three Days Grace when they opened for Nickelback at Centre 200. The guys were super-cool, down-to-earth and absolutely wicked on stage.

So the T.D.G. 101 is that the band made Toronto their base of operations a few years before releasing their debut album in 2003, which spawned the hit songs "I Hate Everything About You" and my favourite "Just Like You". Their fresh sound found the perfect balance of heavy and catchy-so much so that the album had platinum sales in Canada and the U.S. They went on to release a new album every 3 years since-taking us to this, album number 6 from Three Days Grace.

The album opens with a blistering-hot slab of metal called "Right Left Wrong" and that track signals us for what's to come-or does it? To be honest, the song "The Mountain" is such a later period Sum 41 sounding number that I could easily fool people into thinking that it was-and there's also a slight hint of Linkin Park on this song as well, but it is a good

track. "Infra-Red" is a heavier number that, again, reminds me of Linkin Park, and "The New Real" has a great Cult-like guitar intro that is admittedly blistering-hot and pretty catchy.

To switch things up a bit the boys give us "Love Me Or Leave Me", which is really atmospheric, having a sonic flavour similar to a 30 Seconds To Mars song. As for some of the other songs- "Strange Days" is o.k. and "Villian I'm Not" is like Nickelback meets Blink 182, with a bit of the Canadian band Econoline Crush thrown in the mix. I

wish I could say that this album is something new and original-it's not. At best the album is a collection of average songs, with a few gems-and there are way too many musical hints of other bands that get in the way of what Three Days Grace used to sound like. The original singer, Adam Gontier, was replaced in 2003 by bassist Brad Walst's brother Matt Walst. That move changed the sound of the band-and not for the better. I'm sure Matt, Brad, Barry Stock and Neil Sanderson are doing their best to keep the Three Days Grace brand alive, but for fans like me the back catalogue of their earlier stuff is way better. This is not a terrible album by any stretch, but it's not that great either.

TAX TIPS 2017

There are deductions for education Tuition you should understand!

To claim the tax credit for tuition fees, you must have received from the educational institution either an official tax receipt or a completed form T2202A, Tuition, Education and Textbook Amounts Certificate. The total tuition fees paid in the year are claimable if over \$100. This could also include the cost of courses and seminars related to your work.

The costs of books, room and board, or student association fees cannot be claimed. If the fees were paid by your employer or the employer of one of your parents, then the costs are not deductible unless the reimbursed amount is included in your income or your parent's income. Private school tuition fees for elementary and secondary students are generally not tax deductible, although there are some exceptions. There are non-refundable tuition and education tax credits available for qualifying post-secondary education in some provinces/territories.

A portion of the private school tuition fees, if it relates to child care services, may qualify as child care costs.

If you were taking courses as a requirement of your employment, and your employer has provided you with a form T2200, Declaration of Conditions of Employment indicating this requirement, then the cost can be claimed as an employment expense, instead of as a tuition tax credit.

If you are unsure of how your education should be handled on your taxes, we recommend that you speak with your tax professional.
