The KROWN formula remains active as an invisible barrier to repel moisture and salt and prevent it from re-entering the metal. The KROWN product can be applied in any season and weather.*

### NEW DECOMPRESSION TABLE RELIEVES PAIN

Darren Strong from Strong Chiropractic, announces a new, sophisticated computerized decompression table that allows the spine to be gently stretched and relaxed for spinal decompression therapy.

The pattern of alternating pulling and relaxing creates vacuum-like pressure which allows disc material that was herniated or protruded to be pulled back in the disc over time.

Patients will notice a reduction of their pain during these treatment sessions. Stop in today and ask about the new table and how you can benefit.

**Lee Aaron – “Diamond Baby Blues”** - I’m going to start things off by pointing out the obvious-when you hear the first song on this new album you’ll automatically think of Shania Twain-which is kind of unfair to Lee Aaron. By the time Shania released her first album in 1993 Lee Aaron had already released her sixth album and was an established Canadian artist who started off as the “Metal Queen”, earning her ‘street cred’ in the male-dominated hard rock genre. As the years progressed Lee moved more into top 40 rock and eventually

made her way to jazz, but in latter years returned to a more blues-oriented rock vein. That takes us to her latest venture-and it’s a good one. Lee has 5 original songs and 7 cover songs in this collection and the title track is a full-on rock number that ranks right up there with some of Lee’s best songs-and it reminds us just how great a rocker Lee always was, and still is. As mentioned, the collection kicks off with its namesake song “Diamond Baby”, and on first listen the song blasts you back to Lee’s great melodic hard-rocking days, and another original cut, “American High” comes across like one of Alice Cooper’s more pop-oriented songs as Lee graduates with

head of the class distinction. “Miss Mercy” is also 100% pure rock and roll-at full throttle drive.

As for some of the cover songs Lee’s band provides a wicked musical backdrop for Lee to absolutely shine on Deep Purple’s “Mistreated”, and she turns Janet Jackson’s “Black Cat” into a super-cool rocker (let’s just say it-Janet never did that!). I also give big credit to Lee and guitarist Sean Kelly for reaching beyond the more obvious cover song

choices and finding one like “Hard Road” by Australian rocker Steve Wright to do. Lee totally makes this track her own-and in such a great way. There’s a real gem towards the end of the album with “You’re No Good”, a song most remembered by Linda Ronstadt’s take on it. Lee’s version is close to Linda’s-with just a little more punch.

If you’ve seen any of Lee’s latest videos on YouTube it’s clear that she’s as vivacious and hot as ever-and she delivers that message totally with Koko Taylor’s song “I’m a Woman”-there’s no denying that. The album finishes off with a song that can best be described as a sexy, sultry steamer with Lee dropping the rock road to walk on a street of blues for “My Babe”. This album is a great offering to those of us who like our Canadian rock hot and hard.
