Unlike the conventional methods of rust proofing which tend to work as coating, a KROWN treatment actually displaces moisture and creeps into the inner metal fold of the vehicle - the areas where the most rust problems start. The KROWN formula remains active as an invisible barrier to repel moisture and salt and prevent it from re-entering the metal. The KROWN product can be applied in any season and weather.

NEW DECOMPRESSION TABLE RELIEVES PAIN

Darren Strong from Strong Chiropractic, announces a new, sophisticated computerized decompression table that allows the spine to be gently stretched and relaxed for spinal decompression therapy.

The pattern of alternating pulling and relaxing creates vacuum-like pressure which allows disc material that was herniated or protruded to be pulled back in the disc over time.

Patients will notice a reduction of their pain during these treatment sessions. Stop in today and ask about the new table and how you can benefit.

Father's Day Smiles

I asked my dad to help me with a math problem. He said: "Don't worry; this is a piece of cake." I said: "No, it's a math problem."

Dad: Hi, Sweetie, how was school today?

Daughter: You can read all about it on my Facebook, Dad!

The story is told of a father of five children who came home with a toy. He summoned his children and asked which of them should be given the present. "Who is the most obedient one here? Who never talks back to Mom and does everything that Mom says to do?" He inquired.

There were a few seconds of silence, and then all of the children said in one accord: "You play with it Daddy!"

FUTURE WORLD - As you can see by this column's banner I am returning to my "Take 2" reviews for a while, taking a break from music. The whole idea for "Take 2" originally was to find some lesser-known, not always mainstream, occasionally bizarre, weird or just wonderful eye-treats for the viewing screen of your choice.

This week my attention was grabbed by James Franco's latest movie "Future World" because I am a huge fan of James's past efforts, and in this case he directed and acts in a flick that sounds like a "Mad Max/Road Warrior" storyline. So I thought 'why not watch it'.

Along with Franco, the movie has Mila Jovovich, Lucy Liu, the rapper Method Man and Snoop Dogg, who really has the only likeable role in the whole movie. The story is set in a bleak future where the world is a wasteland due to a not-properly explained war where human-looking artificial intelligence creations usher in the destruction of most of the world's human population, and survivors eek out what's left of their lives in small groups or tribes. Lucy Liu (in another one of her 'as warm as an ice cube' roles) is seriously ill and her son decides to venture into the wastelands

to find her medicine so that she can survive. On his journey he's hunted by violently savage raiders, led by James Franco in what must be a vanity role, or a chance for James to just go totally over the top and have fun playing a psychotic maniac. Maybe he owes somebody some money and this is his or her payoff. But you know who's not getting a payoff? The viewer, for wasted time because this movie is a piece of barnyard fertilizer.

The movie starts out with some promise, and doesn't look like a cheap b-grade drive-in film at all. Once Franco enters the picture though his role soon gets a bit cliché, and then annoying and, finally just crass. It doesn't take long for you to really

stop caring about anyone in this film, and end up hanging in to the end in the vague hope that something will save it-nope, doesn't happen. Plus, why does anyone hire Lucy Liu to act-her acting has all the charisma of a dead fish, and in this movie she basically lies in a bed trying to look sympathetic-but more like pathetic.

If this type of storyline grabs you it's better you spend your viewing hours on something like the wonderful reboot "Mad Max-Fury Road". As for me-too late, so I'm just trying to figure out whom to send a bill for time wasted to. Message to James Franco; you can do better than this-you've showed us that.
