Unlike the conventional methods of rust proofing which tend to work as coating, a KROWN treatment actually displaces moisture and creeps into the inner metal fold of the vehicle - the areas where the most rust problems start. The KROWN formula remains active as an invisible barrier to repel moisture and salt and prevent it from re-entering the metal. The KROWN product can be applied in any season and weather.

NEW DECOMPRESSION TABLE RELIEVES PAIN

Darren Strong from Strong Chiropractic, announces a new, sophisticated computerized decompression table that allows the spine to be gently stretched and relaxed for spinal decompression therapy.

The pattern of alternating pulling and relaxing creates vacuum-like pressure which allows disc material that was herniated or protruded to be pulled back in the disc over time.

Patients will notice a reduction of their pain during these treatment sessions. Stop in today and ask about the new table and how you can benefit.

JOHNNY MILES FESTIVAL NEWS

This year's Senior's Luncheon event has been moved to North Sydney Fire Hall. Due to our late start this year all the suitable facilities in Sydney Mines were not available. Sorry for the inconvenience

"The Road to Coronation Street" - "Hi, my name is Paul and I like Coronation Street-hi Paul". Yes, that sounds like something you would hear at a support group meeting, but one good addiction to have is being a "Corrie" fan. Since December 9th of 1960 British television viewers have been enchanted by the day-to-day lives and antics of the residents of Weatherfield's Coronation Street, and the Rovers Return.

The history of the show's birth, and almost early death, is detailed in the drama "The Road To Coronation Street" as this 2010 made-for-television feature follows the story of a 22 year old upstart actor named Tony Warren-who never wanted to be a writer, but became one at the last minute to get a job with Granada Studios in Manchester, England. "Corrie" fans can thank a Canuck named Harry Elton for first supporting Tony's idea of a TV program that shone a light on average folks in the Manchester area (instead of the well to do people that the BBC was presenting in their other programming) to the network big wigs-and then saving the show after same said big wigs wanted to cancel the show after the first pilot was produced. How Harry did that was pretty

much ingenious-and is detailed here in living colour.

Most "Corrie" fans know that since Day 1 there's been a steady presence on the show-Ken Barlow (played by William Roche, who was 28 years old at the time of the first show-and now holds the record for being the longest serving male television star in a continuous role). I was going to say coincidentally, but it's more by design that in this feature the role of Ken Barlow is played by William Roche's actual son,

William James Roche-who also had parts on the real "Coronation Street".

This feature was written by Daran Little-who has been an archivist/

scriptwriter for the actual series, so who better to tell the story than an actual insider. The drama reached a peak audience of 852,000 viewers on its first trans-mission, making it the second most popular program in BBC Four's history, next to 2008's "The Curse of Steptoe", and was also described as "fond, warm and charming" by the critics.

Another great thing about this DVD is not only does it show us how "Coronation Street" came to be-it also has the original 1960 show included as a bonus feature, complete with that 'almost sorrowful' theme song that we've all come to love. You may be able to stream or download this program-I found a free loaner copy at the Cape Breton Regional Library. Enjoy!
