NEW DECOMPRESSION TABLE RELIEVES PAIN

Darren Strong from Strong Chiropractic, announces a new, sophisticated computerized decompression table that allows the spine to be gently stretched and relaxed for spinal decompression therapy.

The pattern of alternating pulling and relaxing creates vacuum-like pressure which allows disc material that was herniated or protruded to be pulled back in the disc over time.

Patients will notice a reduction of their pain during these treatment sessions. Stop in today and ask about the new table and how you can benefit.

We've got your back!

"Velvet Buzzsaw" - To be honest I had no plans on writing this particular column until a few nights ago when screen surfing through Netflix I saw a great line-up of actors for this movie. One of my favourite actors is Jake Gyllenhaal (ever since 1999's "October Sky" movie) in the lead role, with Toni Collette, John Malcovich and Rene Russo adding even more thespian appeal to this feature. This film, by filmmaker Dan Gilroy, looks visually amazing-with rich camera shots and angles that are appealing, but for some reason they seem a tad alarming at the same time. As the story progresses we get to see a collective of the super-talented and rich in the Avant-garde art world. You'll be wondering who is more despicable here-the navel gazing, pompous and self-absorbed artistes or their bloodsucking agents and publicists; they are both cutting-edge and cut throat. Do not let this information turn you away from this movie though, because as it progresses the pieces of a very disturbing puzzle come together to form a picture of true horror. Yes, this is a horror movie in every sense of the word. It's a perfect example of how greed can literally kill. SPOILER ALERT- when a woman (Zawe Ashton) discovers the body of a man who lived in her building the

doors of mystery open up, and when she physically opens the man's apartment door she finds a treasure-trove of original art, hundreds of paintings of all sizes that show the work of an artist that was incredibly talented and totally insane. There's no family to claim the artwork so she takes it all as she works for an art agency, and needs her 'big break'. Once the popularity of the works comes to light the main characters do a mad dash to get some of the paintings to sell for big bucks. The artist

had a twisted and a b u s e d upbringing, and eventually murdered his father. That rage got reflected in the colorfully over-saturated and very disturbing paintings he did,

with a secret ingredient-his own blood. So the artwork is cursed. Each person that tries to cash in on the artist's legacy meets an untimely, and very art-appropriate dispatch. As mentioned earlier this movie quickly turns on a dime to become something totally unexpected-and totally different. I read all the hype last year about the movie "Hereditary" and how that movie was being looked at as the best horror movie in 20 years (not to me-I wrote that it was a huge letdown) but this movie is way better-and a lot scarier. BTW-both movies starred Toni Collette; her role here is much more enjoyable. So if you want to watch a creative horror movie, "Velvet Buzzsaw" is definitely cutting edge.

TAX TIPS COLUMN

CAN YOU SPLIT YOUR PENSION INCOME?

Since 2007, you may split certain pension income with your spouse or common-law partner. This can be done if the following conditions are met:

- the pensioner and spouse or common-law partner must live together
- the pensioner and spouse or common-law partner are residents of Canada on December 31 of the year
- the pensioner received pension income that is eligible for the pension income tax credit

Up to 1/2 of eligible pension income may be allocated to the taxpayer's spouse when the tax returns are filed. In some cases this will result in a pension income tax credit for the transferee. No funds are actually transferred using pension splitting - it is simply a method for reducing the taxable income of one spouse by allocating income, on the tax return, to the other spouse.

Income that does not qualify as pension income for the pension income tax credit:

- Old Age Security or Canada Pension Plan benefits
- Quebec Pension Plan benefits
- death benefits
- retiring allowances
- RRSP withdrawals other than annuity payments
- payments from salary deferral arrangements, retirement compensation arrangements, employee benefit plans, or employee trusts

The transfer must be agreed to by both spouses, by filing the Canada Revenue Agency (CRA) form Form T1032 Joint Election to Split Pension Income, with the tax return. Form T1032 also provides an area for input of the total amount of withholding tax deducted from the pension income of the transferor. The withholding taxes related to the transferred pension income are then transferred to the spouse, on a pro-rata basis. Thus, if 40% of the pension income is transferred to the spouse, 40% of the withholding taxes will also be transferred.

For more information about Pension splitting, please speak with your Tax Professional.
